

CATALOGUE 2023

Measurements

The dimensions shown in the tables are the exterior dimensions (including handles, wheels, bottom glides, side pockets and other external parts).

Measurements of volume, dimensions and weight are carried out in the Samsonite laboratories using procedures whereby tolerances up to 1.5 cm in dimensions and 5 % in weight and volume cannot be excluded.

Samsonite reserves the right to amend the specifications, colours, dimensions and weight of any product without prior warning. Colour deviation may occur due to the printing technique used.

Product Codes

All Samsonite product codes appear as follows: S'Cure Eco Spinner 55:

128014: MODEL CODE S'CURE ECO SPINNER 55

Quality

We deliver the quality. You conduct the test. Every journey. Every day. You might not have given it any thought, but each Samsonite product undergoes the most stringent controls and tests before it goes on the market. Of course, the ultimate test is conducted by you, the customer.

HISTORY

Milestones

Ever since its earliest days, Samsonite has been the most innovative luggage manufacturer in the world. It has led the industry in using new materials and creating new designs. Here are just a few of the luggage landmarks that Samsonite has created over the years, as part of its tradition of innovation.

The Wooden Trunk

Jesse Shwayder, the company's original founder, redesigns the basic wooden trunk with shiny metal studs and corner-pieces making it more eye-catching and "strong enough to stand on."

Streamlite™

In an early use of a new cuttingedge technology, the Streamlite suitcase is clad in a lightweight lithographed paper to create a "rawhide" effect. Its tapered shape is destined to become a classic within the industry.

Silhouette™

The most advanced luggage made up to that time, included a new modern shape with recessed hardware to protect it from the wear and tear of travel.

Classic Attaché

The first ABS Attaché case is created for a new generation of business men. This sleek case soon became emblematic for the early-60s Mad Men-style executive.

1998

2004

2008

2015

Xylem™

Introduction of first the Samsonite suitcase in aluminium. Its matching attaché would go on to play a key supporting role in the James Bond movie "The World Is Not Enough," where it was used to tote bundles of cash around Europe.

Spinner[®]

Samsonite markets the fourwheel Spinner, which could be steered in any direction and toted right alongside the traveller. This innovation radically improved mobility and convenience for travellers as they navigated their way through modern airports.

Cosmolite[®]

Samsonite launches Cosmolite as an aswer to the market's increasing demand for stronger and lighter suitcases. It was the lightest and strongest Samsonite case yet developed. Its sea shell inspired design became an instant success and the collection went on to win many design awards, including Red Dot Award "Best of the Best."

Neopulse™

With the launch of Neopulse, Samsonite further strengthens its production capacity in Europe. The Made in Europe label, in combination with a strong design and competitive weight advantage are what made this collection an instant commercial success.

1969

1986

1994

Saturn™

As a response to the rising demand of lightweight luggage, Samsonite launches its first Polypropylene suitcase with injection-moulded shells. The Saturn collection was the niftiest iteration of lightness and strength yet.

Silhouette Blue

The introduction of wheels to the Silhouette frame transformed the luggage world for ever. The case was a true revolution in travel comfort and convenience, targetting a new generation of frequent flyers.

Oyster™

Oyster was the first suitcase with a three-point locking system, providing ultimate strength and security. The case was an immediate triumph, with 140.000 bought in its first year, it was the fastest-selling case of all time.

Ziplite™

With Ziplite, Samsonite introduced its first Polypropylene suitcase with a zipper closure, thus combining both the benefits of hardside and softside luggage. Sales took off quickly and the market for hardside suitcases with zippers was born.

2018

2019

Eco Collection

Worldwide, Samsonite launches 23 product lines that are made from recycled Polypropylene or Recyclex[™], a fabric made from 100% post-consumer recycled PET plastic bottles.

S'Cure Eco post consumer-waste S'Cure Eco is the first suitcase on the planet repurposing post-consumer recycled plastic waste. The suitcase's shells are made using recycled Polypropylene from post-consumer household waste, turning a material too valuable to be thrown away into a high-quality functional product.

2020

Modern, effortless and ready-to-go. Vaycay is designed for those who appreciate sleek design, quality and convenience at a great price. The wide range of suitcases and bags are perfect for every journey.

- Front pockets allowing you to tuck-away last-minute belongings and small accessories
- Expandability available on most models
- All pockets are lockable, with an integrated TSA008 lock with kissing sliding pullers on the suitcases
- Secure corner protection on the suitcases
- Practical packing thanks to packing straps, pockets and details colour matching with the exterior
- Interior fabrics made from post-consumer recycled PET bottles, part of our Recyclex[™] Material Technology Initiative

PRO-DLX 6TM

A well-awaited facelift, coming in the assortment to revolutionise the concept of heritage backpack.

PRO-DLX 6 will be a step forward from its predecessor PRO-DLX 5 as the DNA will remain but the look will be refreshed in order to become modern and aligned with trends. The line offers a wide assortment focused on core models and linked with upcoming trends.

- Recycled PET lining and ballistic Nylon
- Simplified organisation and updated laptop compartment
- Softer construction, contemporary shape following the market trends
